

Supplier Code of Conduct

PURPOSE AND SCOPE

At Tradin Organic, we are committed to an ethical and transparent way of doing business and believe that this is crucial for a stable, long-term, and sustainable access to our ingredients. We expect our suppliers and sub-suppliers to show the same commitment.

This Supplier Code of Conduct ("**Supplier Code**") intends to clarify our definition of ethical business standards relating to business integrity, labor practices, associate health and safety, and environmental management. The Supplier Code is grounded in the Global Code of Conduct of Acomo, the holding company. All partners must be prepared to provide Tradin Organic with information about subjects mentioned in this guideline and to be audited by Tradin Organic or an authorized 3rd party representative. Suppliers are also expected to conduct reasonable due diligence at sub-suppliers. Through this process, we strive to monitor the social and environmental impact of our supply chains and support our suppliers to continuously improve their operations.

Suppliers, vendors, contractors, consultants, agents and other providers of goods and services who do business with Tradin Organic entities worldwide are expected to follow this Code. In case of non-compliance the business relation can be terminated.
